

CALZEN®

Calcium + Vitamin D3 Nutrition Platform

Product Overview

CALZEN® is an Italian-developed calcium supplementation platform based on microencapsulated calcium technology and vitamin D3 support.

Developed for nutraceutical manufacturers and brand owners, CALZEN® provides a complete bone health solution designed for daily supplementation and long-term skeletal support.

The platform combines microencapsulated calcium technology with vitamin D3, supporting modern consumer expectations and market requirements.

Technology Platform

Active Ingredients
